

PREMIUM PACKING SOLUTIONS

Double the Life. Double the IMPACT. Designed to Perform. Built to Outlast.

IMPACT™ Packing rings, sets and fluid-end solutions have been designed to improve the life expectancy of your equipment by increasing reliability and up time.

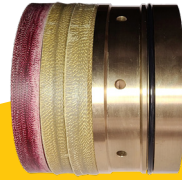

Meet your maintenance, non-productive time (NPT), plunger life, and fluid-end washboarding protection targets with an IMPACT™ Packing solution that provides the most value to your operations.

Gold Long Life

SOFT HNBR STANDARD
LIFE HEADER RING

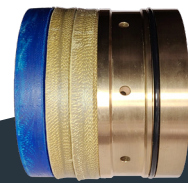

- / Softer rubber with durable chemical resistance
- / Best washboard prevention
- / Best plunger life

Gold Extended Life

INFUSED FABRIC
HEADER RING

- / Reduces clipping and aids in preventing extrusion
- / Best balance of packing, plunger, and fluid-end life

Gold Hard Life

EPOXY INFUSED
HEADER RING

- / Hardened ring drastically reduces clipping and eliminates stiction of sand and chemicals
- / Best packing life

// Soft sets available with IMPACT™ Gold Kevlar or IMPACT™ Gold Aramid pressure rings.
